This sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Insumerable proofs are shown that these Pitls have virtues which surpas in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purise out the feel humors which breed and grow distemper, stimulate suggists or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they care the every-day complaints of every body, but also formidable and dangeron diseases that have benified the best of humans skill. While they produce powerful effects, they are at the same time, in diminished doese, the safest and best physic that can be employed for callifier. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Ource have been made which surpass beilef were they not substantiated by men of such exatted position and character as to forbid the suspicion of untruth.
